5 DIFFERENT CULTURES - NETWORKING - COOPERATION

International cooperation among schools

**PARTNERS AND COMMUNITIES TOGETHER TO IMPROVE THE
QUALITY OF THE EDUCATIONAL SYSTEMS IN EUROPE**

3 INTELLECTUAL OUTPUTS

TRAINING KIT

A MANUAL

- for teachers, firstly, teaching in the low secondary school, then also open to be adapted and enriched for primary and secondary schools. A technical and practical kit of activities do be developed and reproduced in classroom

EU CURRICULUM

A LEARNING PATHWAY

long term and structured with a first phase of research and teachers training, a second phase of experimentation and reporting of labs in classroom and then embedding, sharing, promoting and disseminating

POLICY PAPER

A POLITICAL DOCUMENT

- which contains the clear request of a wider network of schools, united by this consortium, to policy makers and stakeholders to make European Citizenship Education formally part of school curriculums

The importance of teachers training

in a first phase teachers are the protagonists and the target group "in need". From November 2017 to Spring time 2018 they are guided to research, train themselves online, mentored by experts and they take part in a specific training in Romania on the topic "Teaching ECE at school"

ECE MEANS "EUROPEAN CITIZENSHIP EDUCATION"
