Module 13

European writers' work for children

LESSON REVIEW

Module:	13 – European Writers' Work for Children
Topic:	European Writers for Children
Lesson conducted by:	Kornelia Magiera
Date:	14 January
Class:	2
Age group:	8
Number of students involved:	17
Best points of the lesson plan (what the students especially enjoyed / what proved the most successful part of the lesson):	The students quickly solved the puzzle and matched the fairy tales with the authors. They know the plot of traditional European fairy tales. They improved their vocabulary connected with tales and were very eager to match the tales they knew with fairy tales attributes. They enjoyed the lesson a lot.
Suggestions on what might be improved / modified:	If time allows, as a reward for good work the student can watch a DVD with one of the traditional fairy tales.
