Module 13

European writers' work for children

## LESSON REVIEW

<b>Module:</b>	<b>13</b> – European Writers' Work for Children
<b>Topic:</b>	<b>European Writers for Children</b>
<b>Lesson conducted by:</b>	Renata Parchańska
<b>Date:</b>	1 February 2019
<b>Class:</b>	5a
<b>Age group:</b>	11-12
<b>Number of students involved:</b>	17
<b>Best points of the lesson plan (what the students especially enjoyed / what proved the most successful part of the lesson):</b>	The students were happy to prepare presentations about writers and to search the Internet for information. The puzzles were too easy for this age group, so they solved them very quickly. They also quickly found the countries from which the authors came on the map.
<b>Suggestions on what might be improved / modified:</b>	It would be interesting to make a competition on European fairy tales as a follow-up activity.
