

LESSON REVIEW

Module:	23 - Travelling around Europe
Topic:	Travelling to Know European Capitals
Lesson conducted by:	Magdalena Dela
Date:	7 December 2018
Class:	7a
Age group:	12
Number of students involved:	13
Best points of the lesson plan (what the students especially enjoyed / what proved the most successful part of the lesson):	Becoming “travellers”, even if just in their imagination, developed the students’ creativity and the specific geographical knowledge was gained while having fun at the same time.
Suggestions on what might be improved / modified:	The students’ creativity and motivation may be increased even more by assigning them with a task of planning a class trip through chosen European capitals (with all attractions included).
