

LESSON REVIEW

| | |
|--|---|
| Module: | 9 – European Filmmakers' Work for Children |
| Topic: | European Filmmakers' Work for Children |
| Lesson conducted by: | Anna Milerska |
| Date: | 4 January 2019 |
| Class: | 6b |
| Age group: | 11-12 |
| Number of students involved: | 10 |
| Best points of the lesson plan (what the students especially enjoyed / what proved the most successful part of the lesson): | The children had a chance to learn about the films from different European countries. Some of these films are completely unknown in our country. |
| Suggestions on what might be improved / modified: | Some uploads with fragments of the films would be very welcome – we could not find some of them anywhere and it would be good for the children to see for themselves. We also added one Hungarian film, as the novel is discussed here as a set book. |
